Product Description & Prices

They came to you for care... And left knowing that you do.™

Thank You for allowing us to be a part of this journey...

For 25 years, the Memories Unlimited family has been providing sensitive, compassionate, and carefully researched bereavement tools for caregivers to use to help families who experience a loss. We have crafted beautiful expressions of empathy *and* psychological support for the families experiencing the loss and for the caregivers, who give so much of themselves while supporting them. Our items are padded and huggable and most have ribbon ties, which not only make them attractive, but signify closure when tied, and allow one to open up to the memories and feelings within as they are opened. This same thoughtfulness has been carried through in the development of the many support tools we offer for helping to complete the continuum of care for bereavement support, options for respectful disposition, and the importance of memory-making and validation.

We believe respectful care and dignified handling of loss, be it pregnancy, pediatric, or adult, are essential elements for the whole healing of the mother's, family's, and caregiver's well-being. Our family will continue our mission of innovating and developing bereavement support items to help empower "care-givers" with the tools they need to give excellent care to their patients, and to ensure he or she is proud of and confident in the continuum of care they are able to offer on behalf of their facility. We've been working with hospitals all along to provide *more* than clinical care; we hope to help institutions to continue to be leaders in providing excellent comfort and bereavement care.

Bereavement support is some of the most important and life-impacting work a caregiver will do in his or her career; please allow *our* family to help ease the burden. By infusing the intention of love in all we do, we hope each caregiver feels our support as they help and guide the families in their care. Loss and the accompanying emotions make for an individual journey for everyone involved, and we believe having trusted tools creates a sense of care patients *feel*, which gently leads them through their first steps in healing, and thoughtfully reminds them that...

They came to you for care... And left knowing that you do.™

THE *Preshand* SYSTEMTM

™ Memories Unlimited, Inc.

The Next Step In Bereavement Care...

The *Preshand* System (preh-schänd)

was developed to help provide caregivers with a dignified, respectful, sensitive, and practical way of managing the **Presentation** and **Handling** of the infant when a loss occurs.

The *Presentation* portion of this System was developed for the *Parents*. It provides them with the comforting memory of their infant cradled in a Rattan-looking Basket (rather than in an isolette), giving a less clinical and warmer last image of their infant in the hospital and a gentle setting for photos.

The *handling* portion of the System was created with the *Staff* in mind. The Handling Carriers, together with the Inserts (which provide a place for the baby to lay and subtly fit into the Baskets for presentation then become the final resting place), enable the caregiver to confidently transport the baby through public areas to the morgue/pathology with discretion, respect and dignity.

USING THE PRESHAND SYSTEM

Presentation...

Nestle base of Insert and baby on Nesting Filler. Arrange the fabric Coverlet to create a soft setting.

Present baby in Preshand Presentation Basket to the family.

Suggest taking photos during the Presentation phase while the baby is surrounded in a soft setting.

Handling...

In staff area, remove Insert with baby from Basket.

Prepare baby, fold Coverlet over baby. Place any keepsakes inside the Memory Box™.

Secure Insert lid with the ribbon ties and fill out Insert ID card located on the end of Insert base.

Place Insert containing the baby inside Handling Carrier. Secure bag.

Transport the baby with confidence throughout facility.

These steps may be done in reverse for families requesting to visit with the infant after the initial process. If the baby dies in the parent's arms, the baby may be placed in the Insert and Basket before leaving the room.

THE KEEPSAKE IMPRESSIONS KIT™

For Infants and All Ages

A Lasting Impression...made in minutes... non-toxic, no mix, air-dry molding material

The Keepsake Impressions Kit, sized for infants, Toddlers, and All Ages is a treasure that captures - in a mold - a moment in time. The background of the entire page is a photograph of several birch tree trunks. The bark is white with characteristic dark, horizontal lenticels and some vertical scar marks. The trees are slightly out of focus, creating a soft, ethereal atmosphere. In the upper portions of the frame, the branches of the trees are visible, adorned with bright yellow autumn leaves. The overall color palette is muted, with the white of the bark and the yellow of the leaves providing a gentle contrast against a slightly greyish background.
